

Parallel Processing: CONPAR 94. VAPP VI

Third Joint International Conference on Vector and Parallel Processing, Linz, Austria, September 6 - 8, 1994

This volume presents the proceedings of the Third Joint International Conference on Vector and Parallel Processing (CONPAR 94 - VAPP VI), held in Linz, Austria in September 1994. The 76 papers contained were carefully selected from a wealth of submissions and address the most important aspects of parallel processing research. The volume is organized into sections on performance analysis and monitoring, parallel program development, parallel algorithms and complexity models, parallel architectures and abstract machines, parallel languages and compiler technology, networks and routing, and scheduling in distributed memory systems.
