

Integrity Primitives for Secure Information Systems

Final RIPE Report of RACE Integrity Primitives Evaluation

This manual documents the outcome of the EC sponsored project RACE Integrity Primitives Evaluation (R1040), RIPE. This project is a huge joint 350 man-month project conducted by 16 leading European security experts.

This book offers expert advice to professionals seeking to secure information systems by applying up-to-date cryptographic techniques. The core of this volume is a detailed integrity primitives portfolio recommendation. Among the issues addressed are security services, integrity mechanisms, data origin authentication, entity authentication, access control, data integrity, non-repudiation, signatures, and key exchange.
