

Classification and Knowledge Organization

Proceedings of the 20th Annual Conference of the Gesellschaft für Klassifikation e.V.,
University of Freiburg, March 6-8, 1996

Large collections of data and information necessitate adequate methods for their analysis. The book presents such methods, proposes and discusses recent approaches and implementations and describes a series of practical applications.

Large collections of data and information necessitate adequate methods for their analysis. The book presents such methods, proposes and discusses recent approaches and implementations and describes a series of practical applications.
