Mayr / Prömel / Steger

Lectures on Proof Verification and Approximation Algorithms

During the last few years, we have seen quite spectacular progress in the area of approximation algorithms: for several fundamental optimization problems we now actually know matching upper and lower bounds for their approximability. This textbook-like tutorial is a coherent and essentially self-contained presentation of the enormous recent progress facilitated by the interplay between the theory of probabilistically checkable proofs and aproximation algorithms. The basic concepts, methods, and results are presented in a unified way to provide a smooth introduction for newcomers. These lectures are particularly useful for advanced courses or reading groups on the topic.

Artikelnummer: 9783540642015
Medium: Buch
ISBN: 978-3-540-64201-5
Verlag: Springer
Erscheinungstermin: 25.02.1998
Sprache(n): Englisch
Auflage: 1. Auflage 1998
Serie: Lecture Notes in Computer Science
Produktform: Kartoniert
Gewicht: 1130 g
Seiten: 348
Format (B x H): 155 x 235 mm
