

Computational Linguistics and Intelligent Text Processing

8th International Conference, CICLing 2007, Mexico City, Mexico, February 18-24, 2007, Proceedings

This book constitutes the refereed proceedings of the 8th International Conference on Computational Linguistics and Intelligent Text Processing, CICLing 2007, held in Mexico City, Mexico in February 2007. The 53 revised full papers presented together with 3 invited papers cover all current issues in computational linguistics research and present intelligent text processing applications.

CICLing2007(www.CICLing.org) was the 8th Annual Conference on Intelligent Text Processing and Computational Linguistics. The CICLing conferences are intended to provide a wide-scope forum for discussion of both the art and craft of natural language processing research and the best practices in its applications. This volume contains the papers accepted for oral presentation at the conference. The conference also featured a poster session; full papers accepted for the poster session were published elsewhere—see information on the website. Since 2001 the CICLing proceedings have been published in Springer's Lecture Notes in Computer Science series, as volumes 2004, 2276, 2588, 2945, 3406, and 3878. A total of 179 papers by 468 authors from 34 countries were submitted for evaluation, see Tables 1 and 2. Each submission was reviewed by at least two independent Program Committee members. This volume contains revised versions of 53 papers by 157 authors from 19 countries selected for inclusion in the conference program. The acceptance rate was 29.6%. Table 1.
