

Product-Focused Software Process Improvement

8th International Conference, PROFES 2007, Riga, Latvia, July 2-4, 2007, Proceedings

A vital new publication for scientists and researchers in the field, this book constitutes the refereed proceedings of the 8th International Conference on Product Focused Software Process Improvement, PROFES 2007, held in Riga, Latvia in July 2007.

The 29 revised full papers, along with four reports on workshops and tutorials and four keynote addresses were carefully reviewed and selected from 55 submissions.

The papers constitute a balanced mix of academic and industrial points of view. They are organized in topical sections on global software development, software process improvement, and software process modeling and evolution.

The other sections cover industrial experiences, agile software development, software measurement, simulation and decision support, processes and methods.

In sum, this is a highly relevant and bang up-to-date book that will keep both researchers and professionals right on the money.
