

Computer Recognition Systems 2

This book presents the results of the 5th International Conference on Computer Recognition Systems CORES'07 held 22-25 October 2007 in Hotel Tumski, Wrocław, Poland. It brings together original research results in both methodological issues and different application areas of pattern recognition. The contributions cover all topics in pattern recognition including, for example, classification and interpretation of text, video, and voice.

Image Processing and Computer Vision.- Features, Learning and Classifiers.- Speech and Word Recognition.- Medical Applications.- Various Applications.
