

Applied Parallel Computing

State of the Art in Scientific Computing. 8th International Workshop, PARA 2006, Umea, Sweden, June 18-21, 2006, Revised Selected Papers

This book constitutes the thoroughly refereed post-proceedings of the 8th International Workshop on Applied Parallel Computing, PARA 2006. It covers partial differential equations, parallel scientific computing algorithms, linear algebra, simulation environments, algorithms and applications for blue gene/L, scientific computing tools and applications, parallel search algorithms, peer-to-peer computing, mobility and security, algorithms for single-chip multiprocessors.
