

Information Security, Practice and Experience

6th International Conference, ISPEC 2010, Seoul, Korea, May 12-13, 2010, Proceedings

The 6th International Conference on Information Security Practice and Experience (ISPEC 2010) was held in Seoul, Korea, May 12–13, 2010. The ISPEC conference series is an established forum that brings together researchers and practitioners to provide a conference of new information security technologies, including their applications and their integration with IT systems

in various vertical sectors. In previous years, ISPEC has taken place in Singapore (2005), Hangzhou, China (2006), Hong Kong, China (2007), Sydney, Australia (2008), and Xi'an, China (2009). For all sessions, as this one, the conference proceedings were published by Springer in the Lecture Notes in Computer Science series. In total, 91 papers from 18 countries were submitted to ISPEC 2010, and 28 were selected for inclusion in the proceedings (acceptance rate 30%). The accepted papers cover multiple topics of information security and applied cryptography. Each submission was anonymously reviewed by at least three reviewers. We are grateful to the Program Committee, which was composed of more than 56 well-known security experts from 16 countries; we heartily thank them as well as all external reviewers for their time and valued contributions to the tough and time-consuming reviewing process. The conference was hosted by Soonchunhyang University, Korea, supported by Korea Internet & Security Agency (KISA), Korea; Electronics and Telecommunications Research Institute (ETRI), Korea, in Corporation with Korea Institute of Information Security & Cryptography (KIISC), Korea, and sponsored by Korea Communications Commission (KCC), Korea. We sincerely thank the Honorary Chair and the General Chairs of ISPEC 2010 for their strong support.
