

Basics Raumgestaltung

Architecture does not consist of two-dimensional drawings – it is built space. The volume Basics Spatial Design focuses on what underlies the perception and design of space and helps to create a deep understanding of the conscious design of three-dimensional relationships. It presents possibilities for spatial design clearly and in a manner that is easily adaptable for one's own work. Topics: - What is space? - How do I perceive space? - Design parameters – elements of space - Repertoire – using the tools
