Journal of Digital Landscape Architecture

The Journal of Digital Landscape Architecture addresses all aspects of digital technologies, applications, information, and knowledge pertaining to landscape architecture research, education, practice, and related fields. The journal publishes original papers in English that address theoretical and practical issues, innovative developments, methods, applications, findings, and case studies that are drawn primarily from work presented at the annual international Digital Landscape Architecture conference. Its intent is to encourage the broad dissemination of these ideas, innovations, and practices. This issue of the Journal of Digital Landscape Architecture, 5-2020, presents contributions from the 21th annual conference at Graduate School of Design, Harvard University, Cambridge Mass, USA, (June 3 to June 4, 2020), covering 12 broad topics: • Cybernetic Ground: Information, Imagination, and Impact • Algorith Mobile Devices, Internet-of-Things, and `Smart' Systems in the Landscape • Data Science and Landscape Information Modelling • Drone/UAV Imagery and Uses • Visualization and Animation of Landscapes • Augmented Reality (AR), Virtual Reality (VR), and Immersive Environments • Geodesign Approaches, Technologies, and Case Studies • Digital Landscape Architectural Responses to Climate Change • Social Media in Landscape Architecture • Teaching Digital Landscape Architecture • Digital Landscape Architecture in Practice
