

Landscape Interfaces

Cultural Heritage in Changing Landscapes

This book has been initiated by the workshop on Cultural heritage in changing landscapes, held during the IALE (International Association for Landscape Ecology) European Conference that started in Stockholm, Sweden, in June 2001 and continued across the Baltic to Tartu, Estonia, in July. The papers presented at the workshop have been supported by invited contributions that address a wider range of the cultural heritage management issues and research interfaces required to study cultural landscapes. The book focuses on landscape interfaces. Both the ones we find out there in the landscape and the ones we face while doing research. We hope that this book helps if not to make use of these interfaces, then at least to map them and bridge some of the gaps between them. The editors wish to thank those people helping us to assemble this collection. First of all our gratitude goes to the authors who contributed to the book. We would like to thank Marc Antrop, Mats Widgren, Roland Gustavsson, Marion Potschin, Barbel Tress, Tiina Peil, Helen Soovali and Anu Printsmann for their quick and helpful advice, opinions and comments during the different stages of editing. Helen Soovali and Anu Printsmann together with Piret Pungas - thank you for technical help.
