

Phacoemulsification, Fourth Edition

The fourth edition of Phacoemulsification provides a comprehensive discussion of the subject, from its history, to phaco-hardware, such as machines and pumps, and phaco-software, for example fluidics, software-assisted torsional phaco; to viscosurgical devices, surgical techniques, premium IOLs and management of complications. With contributions from international specialists and almost more than 800 images and illustrations, this book describes in detail new techniques and developments in the treatment of cataracts. A DVD ROM is included covering aphakic bullous keratopathy, traumatic dislocation of IOL, glued IOL reloaded, aniridia with subluxated cataract and glaucoma, and much more.
