

A Guide to Third Generation Coaching

Narrative-Collaborative Theory and Practice

Third generation coaching proposes a form of dialogue where coach and coachee are focused on creating space for reflection through collaborative practices and less concerned with fabricating quick solutions. Aspiring to achieve moments of symmetry between coach and coachee, where their dialogue is driven by a strong emphasis on meaning-making, values, aspirations and identity issues. Coach and coachee meet as fellow-humans in a genuine dialogue. Marking a new trend in coaching, based on the acknowledgement of changes in society, learning and knowledge production, as well as leadership, while distinguishing itself from the existing models (pop coaching, GROW model, etc.). Third generation coaching is based on a fresh analysis of our society – a society that is characterized by diversification, identity challenges, abolition of the monopoly of knowledge, lifelong learning, and the necessity for self-reflection. Providing quality material to guide ambitious practitioners and high level coaching education programs, in an accessible format. A Guide to Third Generation Coaching advocates a revisited and innovative approach to coaching and coaching psychology, advantageous for learners and practitioners alike, by supporting the reader as a reflective practitioner. "In this insightful book Reinhard Stelter takes coaching to a new level. With its new perspective, it will make an outstanding contribution to the field."
