Telecommunication 4.0

Reinvention of the Communication Network

This book proposes for the first time the concept of communication 4.0, exploring its nature in detail, and offering predictions for the future development of the telecommunication industry. Based on an in-depth analysis of hierarchical communications requirements, it applies Maslow's Model to telecommunication and illustrates the model's five degrees.

Applies for the first time Maslow's Model to telecommunicationIs the first book to put forward and elaborate on the concept of communication 4.0Provides revealing insights into the impacts of communication 4.0Offers an outlook of what communication 4.0 will bring to future telecommunication industry ecosystems
