Free Trade Agreements

Hegemony or Harmony

This book brings together international perspectives on free trade issues that affect civil society from the general populace to the governments of nations, and is relevant not only for lawyers, but also policymakers, international actors and businesses, as well as those with a general interest in free trade agreements. The book examines the manifestation of the concept of free trade in agreements, such as the Trans-Pacific Partnership (TPP), Regional Comprehensive Economic Partnership (RCEP), and China-Australia Free Trade Agreement (ChAFTA). It asks whether such agreements are entered into for the purposes of enhancing trading relationships between partner nations, strengthening commercial ties, and fostering economic growth; or are they sometimes used merely for local political outcomes of the most influential nations.
