

Optimization in Machine Learning and Applications

This book discusses one of the major applications of artificial intelligence: the use of machine learning to extract useful information from multimodal data. It discusses the optimization methods that help minimize the error in developing patterns and classifications, which further helps improve prediction and decision-making. The book also presents formulations of real-world machine learning problems, and discusses AI solution methodologies as standalone or hybrid approaches. Lastly, it proposes novel metaheuristic methods to solve complex machine learning problems. Featuring valuable insights, the book helps readers explore new avenues leading toward multidisciplinary research discussions.

Lieferfrist: bis zu 10 Tage

Artikelnummer: 9789811509933

Medium: Buch

ISBN: 978-981-15-0993-3

Verlag: Springer

Erscheinungstermin: 10.12.2019

Sprache(n): Englisch

Auflage: 1. Auflage 2020

Serie: Algorithms for Intelligent Systems

Produktform: Gebunden

Gewicht: 483 g

Seiten: 197

Format (B x H): 160 x 241 mm
