Modelling, Simulation and Intelligent Computing

Proceedings of MoSICom 2020

This book presents articles from the International Conference on Modelling, Simulation and Intelligent Computing (MoSICom 2020), held at Birla Institute of Technology and Science Pilani, Dubai Campus, Dubai, UAE, in January 2020. Modelling and simulation are becoming increasingly important in a wide variety of fields, from Signal, Image and Speech Processing, and Microelectronic Devices and Circuits to Intelligent Techniques, Control and Energy Systems, and Power Electronics. Further, Intelligent Computational techniques are gaining significance in interdisciplinary engineering applications, such as Robotics and Automation, Healthcare Technologies, IoT and its Applications. Featuring the latest advances in the field of engineering applications, this book serves as a definitive reference resource for researchers, professors and practitioners interested in exploring advanced techniques in the field of modelling, simulation and computing.

Artikelnummer: 9789811547744
Medium: Buch
ISBN: 978-981-15-4774-4
Verlag: Springer
Erscheinungstermin: 29.07.2020
Sprache(n): Englisch
Auflage: 1. Auflage 2020
Serie: Lecture Notes in Electrical Engineering
Produktform: Gebunden
Gewicht: 1251 g
Seiten: 635
Format (B x H): 160 x 241 mm
