

Advances in Systems Engineering

Select Proceedings of NSC 2019

This book comprises select proceedings of the 43rd National Systems Conference on Innovative and Emerging Trends in Engineering Systems (NSC 2019) held at the Indian Institute of Technology, Roorkee, India. The contents cover latest research in the highly multidisciplinary field of systems engineering, and discusses its various aspects like systems design, dynamics, analysis, modeling and simulation. Some of the topics covered include computing systems, consciousness systems, electrical systems, energy systems, manufacturing systems, mechanical systems, literary systems, social systems, and quantum and nano systems. Given the scope of the contents, this book will be useful for researchers and professionals from diverse engineering and management background.

Artikelnummer: 9789811580246

Medium: Buch

ISBN: 978-981-15-8024-6

Verlag: Springer

Erscheinungstermin: 24.01.2021

Sprache(n): Englisch

Auflage: 1. Auflage 2021

Serie: Lecture Notes in Mechanical Engineering

Produktform: Gebunden

Gewicht: 1566 g

Seiten: 926

Format (B x H): 160 x 241 mm
