

LISS 2021

Proceedings of the 11th International Conference on Logistics, Informatics and Service Sciences

This book aims to provide new research methods, theories and applications from various areas of management and engineering. In detail, the included scientific papers analyze and describe communication processes in the fields of logistics, informatics, service sciences and other related areas. The variety of the papers delivers added value for both scholars and practitioners.

Information and communication technologies have been providing an effective network infrastructure and development platform for logistics and service operations. To meet the needs of consumers and to promote core competences, many institutions and firms have been developing new types of services. This proceeding focus on "AI and data driven technical and management innovation in logistics, informatics and services." In detail, the included scientific papers analyze the latest fundamental advances in the state of the art and practice of logistics, informatics, service operations and service science. This book is the documentation of the conference "11th International Conference on Logistics, Informatics and Service Sciences," which took place at the Shandong University. Due to the impact of COVID-19, LISS 2021 took place online as a virtual conference.
