

Computational Intelligence for Engineering and Management Applications

This book comprises select proceedings of the 1st International Conference on Computational Intelligence for Engineering and Management Applications (CIEMA - 2022). This book emphasizes applications of computational intelligence including machine intelligence, data analytics, and optimization algorithms for solving fundamental and advanced engineering and management problems. This book serves as a valuable resource for researchers, industry professionals, academicians, and doctoral scholars in engineering, production, thermal, materials, design, computer engineering, natural sciences, and management who work on computational intelligence. The book also serves researchers who are willing to use computational intelligence algorithms in real-time applications.

Lieferfrist: bis zu 10 Tage

Artikelnummer: 9789811984952

Medium: Buch

ISBN: 978-981-19-8495-2

Verlag: Springer

Erscheinungstermin: 01.05.2024

Sprache(n): Englisch

Auflage: 2023

Serie: Lecture Notes in Electrical Engineering

Produktform: Kartoniert

Gewicht: 1623 g

Seiten: 941

Format (B x H): 155 x 235 mm
