Evolutionary Intelligence and Cybernetics

First International Conference, EIC 2026, Beijing, China, November 7–9, 2026, Proceedings

This book constitutes the refereed proceedings of the First International Conference on Evolutionary Intelligence and Cybernetics, EIC 2026, held in Beijing, China during November 7–9, 2026. The 72 full papers and 12 short papers presented in these volumes were carefully reviewed and selected from 203 submissions.This book covers a wide range of topics, including evolutionary computation, swarm intelligence, multiobjective optimization, reinforcement learning, computer vision, sensor fusion, intelligent control, guidance and navigation, and trajectory planning. Applications include coordination among aerial, ground, and surface vehicles, robotic manipulation, and industrial monitoring.
