

Artificial Intelligence and Sustainable Computing

Proceedings of ICSISCET 2023

This book presents high-quality research papers presented at the 5th International Conference on Sustainable and Innovative Solutions for Current Challenges in Engineering and Technology (ICSISCET 2023) held at Madhav Institute of Technology & Science (MITS), Gwalior, India, during October 21–22, 2023. The book extensively covers recent research in artificial intelligence (AI) that knit together nature-inspired algorithms, evolutionary computing, fuzzy systems, computational intelligence, machine learning, deep learning, etc., which is very useful while dealing with real problems due to their model-free structure, learning ability, and flexible approach. These techniques mimic human thinking and decision-making abilities to produce systems that are intelligent, efficient, cost-effective, and fast. The book provides a friendly and informative treatment of the topics which makes this book an ideal reference for both beginners and experienced researchers.

Artikelnummer: 9789819703265

Medium: Buch

ISBN: 978-981-97-0326-5

Verlag: Springer

Erscheinungstermin: 25.04.2024

Sprache(n): Englisch

Auflage: 2024

Serie: Algorithms for Intelligent Systems

Produktform: Gebunden

Gewicht: 1389 g

Seiten: 721

Format (B x H): 160 x 241 mm
