

Robotics, Control and Computer Vision

Select Proceedings of ICRCVV 2022

This book presents select peer-reviewed papers from the International Conference on Robotics, Control, and Computer Vision (ICRCVV 2022). The contents focus on the latest research in the field of Robotics, their control, and computer vision in the context of robotics. The contributed papers have been arranged to give a flow to the reader. This book will be useful for students, researchers, and professionals from multidisciplinary fields such as mechanical engineering, electronics engineering, electrical engineering, computer science, and mathematics.
