

Communications on Pure and Applied Mathematics

Communications on Pure and Applied Mathematics is a top-ranked mathematics journal that has consistently published the world's best mathematics research since 1942. Our distinguished authors include Abel Prize winners and Fields Medallists. Published jointly by Wiley and New York University's prestigious Courant Institute of Mathematical Sciences, we're an influential, impactful venue for excellent research papers on recent developments in partial differential equations, probability, mathematical physics, geometric analysis, algebra, computer and data science, and applied mathematics. We publish articles quickly, with our Courant Institute editorial board providing rigorous peer review.
