

Journal of Colloid and Interface Science

The Journal of Colloid and Interface Science publishes original research findings on fundamental principles of colloid and interface science, as well as conceptually novel applications of these in advanced materials, nanomedicine, energy, environmental technologies, catalysis, and related fields. The Journal of Colloid and Interface Science emphasizes fundamental scientific innovation within the following categories: - Colloidal Materials and Nanomaterials - Soft Colloidal and Self-Assembly Systems - Adsorption, Catalysis and Electrochemistry - Interfacial Processes, Capillarity and Wetting - Biomaterials and Nanomedicine - Energy Conversion and Storage, and Environmental Technologies
