the INFORMS journal on the practice of operations research

INFORMS Journal on Applied Analytics publishes manuscripts focusing on the practice of operations research and management science and the impact this practice has on organizations throughout the world. The most appropriate papers are descriptions of the practice and implementation of OR/MS in commerce, industry, government, or education. The journal publishes papers in all areas of OR/MS including operations management, information systems, finance, marketing, education, quality, and strategy. For over 45 years, INFORMS Journal on Applied Analytics has been serving the field of O.R. and management science as the premier practice journal. Articles from the journal help advance the practice of O.R., stimulate research in academia and industry, and are widely used for classroom instruction. The journal is home to Edelman and Wagner Award finalist papers, which describe outstanding examples of the practice of O.R. and help bring visibility to the profession. INFORMS Journal on Applied Analytics is essential reading for analysts, engineers, project managers, consultants, students, researchers, and educators.
