Elsevier Current Trends

Trends in Pharmacological Sciences

Trends in Pharmacological Sciences (TIPS) is a monthly peer-reviewed reviews journal that publishes reviews and opinions in fields broadly covering pharmacology, pharmacy, pharmaceutics and toxicology. Launched in 1979, TIPS has an impact factor (IF) of 11.523 as of 2019. Every issue of TIPS contains succinct articles on the most exciting recent developments in pharmacology and therapeutics research. The major areas of research that TIPS is interested in are: - Drug discovery and Development (drug design, target identification and validation, lead generation, preclinical and clinical drug development, drug delivery, pharmaceutical formulation) - Basic and Clinical Pharmacology (drug mechanisms, receptors, enzymes, ion channels, transporters, different classes of ligands, biomarkers, pharmacokinetics, pharmacodynamics, drug metabolism and pharmacogenetics) - Therapeutics (gene- based, cell- based, protein-based therapy, other drug modalities, routes of administration, drug classes, drug nomenclature) - Drug safety and toxicity (drug- drug interactions, adverse drug reactions, mechanisms of drug toxicity, pharmacovigilance) - Pharmacy, pharmacoepidemiology and pharmacoeconomics
