

Research in Organizational Behavior

Research in Organizational Behavior publishes commissioned papers only, spanning several levels of analysis, and ranging from studies of individuals to groups to organizations and their environments. The topics encompassed are likewise diverse, covering issues from individual emotion and cognition to social movements and networks. Cutting across this diversity, however, is a rather consistent quality of presentation. Being both thorough and thoughtful, Research in Organizational Behavior's commissioned pieces provide substantial contributions to research on organizations. Many have received rewards for their level of scholarship and many have become classics in the field of organizational research.
