

Discourse & Society

An International Journal for the Study of Discourse and Communication in their Social, Political and Cultural Contexts

Discourse & Society explores the relevance of discourse analysis to the social sciences. It stimulates a problem-oriented and critical approach and pays particular attention to the political implications of discourse and communication. Discourse & Society is a multidisciplinary, peer-reviewed journal whose major aim is to publish outstanding research at the boundaries of discourse analysis and the social sciences. It focuses on explicit theory formation and analysis of the relationships between the structures of text, talk, language use, verbal interaction or communication, on the one hand, and societal, political or cultural micro- and macrostructures and cognitive social representations, on the other hand. That is, D&S studies society through discourse and discourse through an analysis of its socio-political and cultural functions or implications. Its contributions are based on advanced theory formation and methodologies of several disciplines in the humanities and social sciences.
