

Children & Society

An official journal of the National Children's Bureau, Children & Society is a key resource for practitioners, policy-makers and scholars seeking an understanding of children and young people in contemporary societies and the issues that affect their lives. In publishing high quality research and debate on all aspects of childhood and policies and services for children and young people, we seek to advance theoretical and empirical knowledge about childhood and youth, as well as inform policy and practice aimed at promoting children's well-being and development.
