

John Wiley & Sons

The Philosophical Forum

Since 1970, The Philosophical Forum has been publishing innovative, interdisciplinary contributions in contemporary philosophical inquiry and bridging the gap between philosophy in the West (both analytical and Continental) and the philosophical traditions of the rest of the world. The journal aims to be a true global philosophical meeting place, featuring innovative work within and between philosophical traditions. It covers a variety of philosophical topics such as epistemology, linguistics, ethics, consciousness, logic, and metaphysics.
