

Georgia Perakis, Editor-in-Chief

M&SOM

Manufacturing & Service Operations Management (M&SOM), published quarterly, is the premier journal of the operations management (OM) research community. M&SOM presents state-of-the-art research of interest to both academic and industry researchers and practitioners working at the interface of research and implementation. The journal publishes a wide range of research related to the production of goods and services, including: process design, control, and improvement; operational decision making and planning; supply chain coordination; operations strategy and economics; technology management; productivity and quality management; product development; cross-functional coordination; and practice-based research.
