

American Journal of Audiology

American Journal of Audiology (AJA) is an international, peer-reviewed scholarly that focuses on clinical audiology methods and issues, and serves as an outlet for discussion of related professional and educational issues and ideas. Find the authoritative information you need to stay current with the latest clinical research on the screening, diagnosis, management and outcomes of hearing and balance disorders as well as the etiologies and characteristics of these disorders. With more than 90 articles annually, AJA features research articles, reports on novel clinical procedures, approaches, and cases, review articles and meta-analysis.
