

Orthodontics & Craniofacial Research

Orthodontics & Craniofacial Research publishes research that supports critical discussion of issues relevant to the advancement of the specialty of orthodontics and the evidence-based knowledge of craniofacial growth and development. The scope spans clinical trials, epidemiology, genetics, developmental biology, syndromology, surgery, speech and hearing, and novel therapeutic approaches. The journal facilitates effective communication between the research community and practicing clinicians and can include minority, and conflicting opinions. Published quarterly, the journal's policy is to review manuscripts within 3 to 4 weeks of receipt and to publish within 3 to 6 months of acceptance.
