

This journal details all aspects of our global geoheritage, both in situ and portable. It examines conservation of sites and materials - use, protection and practical heritage management - as well as its interpretation through education, training and tourism. The journal covers all aspects of geoheritage and its protection. Key topics include: - Identification, characterization, quantification and management of geoheritage - Integration of biodiversity and geodiversity in nature conservation and land-use policies - Geological heritage, sustainable development, community action, practical initiatives and tourism - Geoparks: creation, management and outputs - Conservation in the natural world, Man-made and natural impacts, climate change; - Geotourism definitions, methodologies, and case studies - Pedagogical use of geological heritage: publications, teaching media, trails, centers, on-site museums.
