Journal of Pediatric Ophthalmology & Strabismus

The Journal of Pediatric Ophthalmology & Strabismus is a bimonthly peer-reviewed publication for pediatric ophthalmologists. The Journal has published original articles on the diagnosis, treatment, and prevention of eye disorders in the pediatric age group and the treatment of strabismus in all age groups for over 50 years. Begin to explore the Journal and all of its great benefits such as: Regular features including "Eye to Eye," "What's Your Diagnosis?," and "Images in Pediatric Ophthalmology" Online-only case reports Supplemental videos and materials Access to current articles, as well as several years of archived content Manuscripts posted online just 2 months after acceptance The Journal offers an open access publication option to authors of accepted peer-reviewed articles. With this option, articles are made freely available online immediately upon publication in exchange for payment of an article-processing charge of \$3000. SLACK Incorporated's Open Access Publication Policy can be found at <https://journals.healio.com/open-access>. The Journal of Pediatric Ophthalmology & Strabismus is a recognized journal indexed in MEDLINE/PubMed; EMCare; ProQuest; Current Contents Clinical Medicine; Science Citation Index; EMBase; SCOPUS; and Journal Citation Reports, Science.
