

Journal of Electrical Engineering & Technology (JEET), which is the official publication of the Korean Institute of Electrical Engineers (KIEE) being published bimonthly, released the first issue in March 2006. The journal is open to submission from scholars and experts in the areas of electrical engineering technologies. The scope of the journal includes issues in the field of Electrical Engineering and Technology. Included are techniques for electrical power engineering, electrical machinery and energy conversion systems, electrophysics and applications, information and controls, and electrical facilities. Papers based on novel methodologies and implementations, creative and innovative electrical engineering associated with the five scopes are particularly welcome but not restricted to the above topics.
