

Advanced Quantum Technologies

Advanced Quantum Technologies, part of the prestigious Advanced portfolio, is a high-impact quantum science journal publishing theoretical and experimental research in the diverse fields of quantum science, quantum materials, and quantum technologies. We offer a home for physicists, engineers, mathematicians, and materials and computer scientists in academia and industry to share their fundamental and applied research in quantum science in its broadest sense, including but not limited to quantum optics, quantum computing, and quantum metrology. The Advanced portfolio from Wiley is a family of globally respected, high-impact journals that disseminates the best science from well-established and emerging researchers so they can fulfill their mission and maximize the reach of their scientific discoveries.
