

Advances in Molecular Pathology

Advances in Molecular Pathology is an annual review publication that covers the current practices and latest developments in the field of Molecular Pathology. Each issue is divided into sections for comprehensive coverage of all subspecialty areas within molecular pathology, including, Genetics, Hematopathology, Infectious Disease, Pharmacogenomics, Informatics, Solid Tumors, and Identity/HLA. A distinguished editorial board identifies current advances and breakthroughs and invites expert authors to contribute original review articles on these topics. These insightful overviews bring concepts to a clinical level and explore their everyday impact on patient care. The goal of this publication is to help pathologists stay up-to-date in their practice and informed on the rapid advances in the field.
